Specifications:

Frequency Range	1020~1100MHz
Beamwidth of Horizontal	>60°
Beamwidth of Vertical	>60°
Gain	8dBi
Polarization	Vertical
Max Power	≥500W
VSWR	≤1.5
Impedance	50Ω
Connector	N
Lighting Protection	DC Grounding
Work Temperature	-45°C~+70°C
Storage Temperature	-55°C~+85°C
Humidity	100%
Rated Wind Velocity	60m/s
Size	L*W*H(220*190*50mm)

Antenna Erection

- 1 Fix the wave director and the oscillator in a counterpoint (please take notice that the drain hole of oscillator should be downward).
- 2 Erect the antennas to the pole with clamp according to polarization required.
- 3 Connect the RF cables well, and wrap up the connector with waterproof adhesive tape, and do not let the cable flutter in the wind.
- 4 Make a shield for protection the water back into the home before RF cables were acrossed indoor.
