Description

XLINK is a point-to-point data/video wireless transmission system designed for industrial UAVs, ground robots and other data communication applications, featuring 30km/50-70km long transmission distance.

XLINK integrates the technology of 4G, 5G, WIFI, and adopts OFDM technique and multipath anti-interference technology, which has the advantages of long distance transmission, low latency, strong diffraction performance, and big data bandwidth communications.

A great highlight of XLINK is that it supports multi-node interlinked to form a communication mesh, in which one node is too far from the ground station to receive signals, it is able to transmit data to its nearest node, by which data can be sent back to the ground station.

Warning: Do not power on before installing ANT1/ANT2, otherwise it could cause damage to XLINK and burn it out.
Note: The version of WMN is not released yet, we now accept preorder. Email us at support1@foxttechfpv.com if you want to realize Wireless Mesh Network Transmission.

- Highlights:**
- 30 km/50 km Transmission Range
 - Point-to-point Data/Video Wireless Transmission
 - Multipath Anti-interference
 - 200ms Low Latency

- Your Purchase Includes:**
- XLINK-30/XLINK-50 Combo:
- 1x XLINK-30/XLINK-50 Air Unit
 - 1x XLINK-30/XLINK-50 Ground Unit
 - 2x Transmitter Antenna for Air Unit
 - 1x High-gain Panel Antenna
 - 2x J30J Wires
 - 2x Antenna Feeder

- XLINK-30/XLINK-50+AAT Combo:
- 1x XLINK-30/XLINK-50 Air Unit
 - 1x XLINK-30/XLINK-50 Ground Unit
 - 2x Transmitter Antenna for Air Unit
 - 1x High-gain Panel Antenna
 - 2x J30J Wires
 - 2x Antenna Feeder
